

Hello everyone! My name is Sharis and I am from a small town in New Jersey! I am a graduate student studying to get my Master's Degree in Acupuncture at a school in New York City. Although I love what I am studying, what I do not love is having to go into New York City for school. I know many people enjoy the city, but I do not! I prefer a laid-back environment like the town I live in! Everybody is always rushing and running around in New York City. It is the exact opposite of where I live! In order to get into the city, I usually catch a bus or train. The trip normally lasts between 1.5 to 2 hours each way, if there is no traffic!

When I am not at school, I spend my days studying or working as a babysitter for four different families. I am barely ever home because of my busy schedule, but I love my job! Kids are a true passion of mine! Life in America is very busy! People are always on the run, especially around New York City. However, since I was born and raised here, I am used to it! I hope you enjoyed learning about my life in America!

My school in New York City is located inside of this tall building!

My House (under the snow)
